/ Zaragoza (Spain) · Remote · Available immediately

PROFILE

Web developer with more than 10 years of experience and a strong frontend focus: my starting point is designing and building polished, accessible, well-structured interfaces. I can take an application from its first screen to production, with business logic in .NET, SQL Server databases and artificial intelligence integrated through APIs. I work on real projects for brands and companies, combining design, creativity and technology, and I have coordinated a web department.

EXPERIENCE

Analyst Programmer

October 2022 – 2026

Medialabs

- Frontend development and interface layout on most projects, from HTML prototype to production.
- Development of web platforms and applications with C#, .NET, ASP.NET MVC, Web Forms and Blazor, using SQL Server and JavaScript.
- AI integration through APIs: assistants with semantic retrieval (RAG), document analysis and processing, and content generation.
- Digital campaigns, advergaming and interactive experiences for brands, on B2B and campaign projects.

Web Department Coordinator

September 2016 – October 2022

Proyectos Visuales Zaragoza

> **500+** active websites and applications supported by the department

- Coordination of the web department, and management and maintenance of a portfolio of more than 500 websites and apps for gyms and sports centres, in Spain and part of Europe.
- Daily technical and design support for that whole portfolio of websites and apps.
- Development of private areas and sign-up flows for chains such as Metropolitan and Altafit.
- Development of the new sports area for Zaragoza City Council and its mobile app.
- Integration of Redsys payment gateways, and development and maintenance of PrestaShop projects.

SKILLS

Frontend and interface development
Semantic HTML5 · **CSS3** · **JavaScript** · Accessibility · UI/UX · Bootstrap · Animation and interaction · jQuery and AJAX · SASS and LESS · PWA · Google Maps API

Backend and .NET ecosystem
C# · **ASP.NET MVC** · **ASP.NET Web Forms** · **Blazor and Razor** · .NET Framework 4.8 · .NET Core · VB.NET · ADO.NET · IIS and deployment

Artificial intelligence and integrations
Embeddings and semantic search (RAG) · **Gemini API** · **OpenAI API** · Prompt design · PDF document analysis · AI content generation · AI moderation · Claude Code

Databases and security
SQL Server · Access control · Signed tokens (HMAC) · Data protection (GDPR)

Advergaming and interactive development
Advergaming · App gamification · Gamification in advertising · Arcade games in JavaScript · Canvas 2D · Unity

Audio, video and multimedia technologies
Photoshop · Premiere · MediaRecorder and getUserMedia · Web Audio API · ffmpeg.wasm and WebAssembly · ffmpeg and ffprobe · Geolocation · QR codes

Tools and workflow
Git · Visual Studio and VS Code · Azure DevOps · PowerShell

Technical support and training
Technical and design support · Phone and online support · Training · Payment gateways (Redsys)

BRANDS

Coca-Cola · Toyota · Mercedes-Benz · Adidas · Kia · Orange · Vodafone · Repsol · BNP Paribas · Warner Music · Leche Pascual · Clarins · Hitachi · Sanitas · Santalucía · Norauto · Altafit · Metropolitan · Ayuntamiento de Zaragoza · *and many more*

Eduardo *Íñiguez* Gómez

Web Developer | Frontend & Full-Stack · .NET · AI

EXPERIENCE (2/2)

Guitar and Modern Harmony Teacher

March 2014 – September 2016

Musicalia music school

A break from code that taught me to explain things well and to be patient with people who are learning.

Web Developer

September 2012 – June 2013

ICE Comunicación

First professional role as a web developer, after finishing a higher vocational degree in Computer Application Development.

+ Client websites such as muebledenajera.com and cultural-rioja.org.

EDUCATION
